01 Project Implementation

Introduction

Intended for conversions, the Implementation Guide provides direction on the design aesthetic and elements required for City Express by Marriott projects. It is a companion tool to the Property Improvement Plan (PIP) and additional resources found on globaldesign.marriott.com. Together, these create a thorough and complete approach to a conversion of an existing property.

Property Improvement Plan (PIP)

- Defines the required scope for a specific property and will be issued with a low, medium, or high scope designation.
- Provides property specific minimum requirements that must be achieved prior to a conversion to the City Express by Marriott brand.
- PIP document is written by Marriott Global Design.
- Conversion property will be documented with Open Space.

Implementation Guide

- Provides a holistic approach to the design and execution of a City Express by Marriott conversion.
- Provides a clear understanding of the conversion approach and minimum requirements for the brand.
- Provides guidance on the interior aesthetic and spatial planning of key program areas.

Additional Resources

- Kit-of-Part Drawings
- Design Standards
- Building Product Manual
- Interior Design Specification Manual
- Exterior + Interior Signage Guides
- Brand Playbook (Brand and OPS guidance)
- *Note: Imagery and references in this guide provides a sampling of the City Express by Marriott specifications. Additional resources should be followed for the complete compliment of specifications.*

Conversion Strategy

As a conversion brand, we understand that each property is unique, and we approach each with a tailored lens to evaluate its potential.

Our evaluation process balances flexibility with maintaining our brand expression, enhancing the guest experience, and maximizing the useful life of the existing product. We prioritize 'like for like' replacements, minimizing construction changes while integrating brand signatures that enhance the overall guest journey.

This thoughtful approach ensures that each property retains its distinctive character while meeting our high standards and delivering exceptional stays for our guests.

02 Brand Overview

Positioning

Brand Positioning and Strategy

Convenience in Every Journey.
We serve as a break for our on-the-go guests. We offer comfortable stays in convenient locations, with just the right amenities, so you can rest up and get back to the journey.

Value Proposition

Stay connected with our fast tech and enjoy free breakfast and parking. Experience friendly service, comfortable rooms, and thoughtful design. With a 24-hour market, pet-friendly policies, and on-site fitness, we ensure a practical and pleasant stay.

Brand Mission

To provide efficient stays marked by the quality and comfort guests expect from Marriott International.

Brand Values

City Express by Marriott ensures a comfortable stay in convenient locations, backed by the trusted Marriott name. Offering excellent value, it delivers convenience at the right price. With our efficient essentials, you'll have everything you need to recharge and continue your journey.

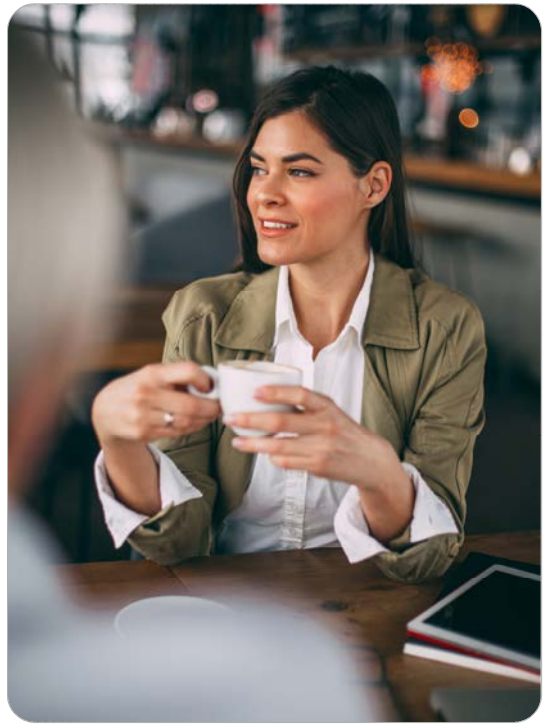
Audience

City Express by Marriott guests are on the move. They seek a convenient, comfortable, and affordable stay, where they can recharge after a long day. City Express by Marriott is here to welcome them with a quality stay, thoughtful simple design and just the right amenities for any trip.

© MARRIOTT INTERNATIONAL, INC, ALL RIGHTS RESERVED

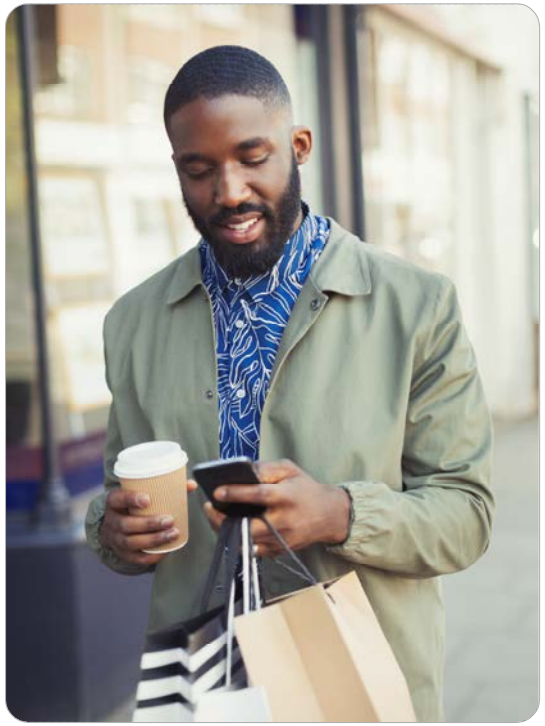
Consumer Target: Efficient Traveler

City Express by Marriott guests are on the move. They seek a convenient, comfortable, and affordable stay, where they can recharge after a long day. They're practical and down-to-earth. They know what they need. And they know what they don't. City Express by Marriott is here to welcome them with a quality stay, thoughtful simple design and just the right amenities for any trip.



Business Travelers

As road warriors, our Business Travelers value ease and dependability above all.



Leisure Travelers

Our Leisure Travelers cherish the efficiency and comfort we provide.

Groups and Families

For Groups and Families, we offer a hassle-free base for shared experiences.

03 Design Approach

Design Approach

We strategically integrate signature design elements across the guest journey to ensure continuity within our brand's flexible framework. Whether standalone features or integrated elements, their simplicity in execution is essential. Each design element is crafted to ensure a seamless and consistent experience. Our Design Signatures embody a unique proposition for our brand, effortlessly adaptable to any space to transform it into a City Express by Marriott effectively. This approach is cost-effective and high-impact, ensuring that each property delivers the same exceptional experience while maintaining its distinctive character.

Quality Essentials

City Express by Marriott features contemporary and functional spaces with clean lines that create fresh and inviting accommodations. These spaces are designed to maximize comfort and efficiency with quality essentials for the stay of the price-conscious traveler.

Flexibility & Adaptability

City Express by Marriott design prioritize the efficient use of space by having compact yet thoughtful design strategies that can easily adapt to various conditions. This generates open, permeable and versatile public spaces, which combined with seamlessly technology integration, they provide the flexibility that all smart guests seek in the midscale tier.

Convenience

“You’ll find a City Express by Marriott wherever the sun is setting.”

From its strategic locations to the comfortable and functional interior spaces, and the excellent welcoming service, City Express by Marriott is able to offer convenience and practicality to all of its guests.

© MARRIOTT INTERNATIONAL, INC, ALL RIGHTS RESERVED

Minimum Design Signatures

Throughout the guide, minimum required signatures, conditional, and flexible design elements are outlined for execution.

- Minimum required signatures are required for any City Express by Marriott conversion, as outlined below.
- Conditional elements are priority for execution and are evaluated on quality and relevance.
- Flexible elements are evaluated on quality, age and useful life as determined by typical renovation replacement cycles.

Exterior

- Site and building signage
- Overall building color application
- Porte cochere color application
- Entry door graphics

Public Space

- Front desk graphics
- Lounge seating group:
  - Woven area rug
  - Ottoman and tray
- Market wallcovering
- Artwork

Corridors

- Elevator lobbies artwork
- RFID with BLE door locks

Guest Rooms

- Lounge Chair
- Ottoman
- Desk lamp
- Power at desk and nightstands
- Accent wallcovering
- Artwork

Icon denotes a signature design element

© MARRIOTT INTERNATIONAL, INC, ALL RIGHTS RESERVED

Maximum Facilities Program

Maximum facilities requirements and programming allowed in any City Express by Marriott conversion.

Exterior

- No maximums.

Public Space

- Operating restaurant not allowed unless physically separated from public space.
- Operating bar not allowed.
- Large conference space (1,001+ sf) not allowed.
- Lobby printing or business center not required and not encouraged. Printing at front desk is a minimum requirement.

Corridors

- No maximums.

Guest Rooms

- Full kitchens with cooktops or ovens not allowed.
- Kitchenettes with no cooktops or ovens allowed up to 10% of the room mix.

© MARRIOTT INTERNATIONAL, INC, ALL RIGHTS RESERVED

Exterior Strategy

© MARRIOTT INTERNATIONAL, INC, ALL RIGHTS RESERVED

Exterior Design Approach

Exterior Design Strategy

Through the application of paint and signage only, a creation of an identifiable design will guide users to their destination:

- Strategy will be cost effective.
- Will deploy signature brand color/s.
- Implement an identifiable brand image.

Color Blocking Strategy

Creation of building and façade hierarchy by size and placement of color blocking application:

- Provide visual color to support brand voice and create a consistent guest journey.
- Create contrast to support exterior signage.
- Existing building architecture to remain untouched.
- Deemphasize existing building details and brand language.

© MARRIOTT INTERNATIONAL, INC, ALL RIGHTS RESERVED

Rules of Application

Background Colors

	Cool	Neutral	Warm
Top	PTW-001-SW Snowbound SW 7004	PTW-001-SW Snowbound SW 7004	PTW-001-SW Snowbound SW 7004
Bottom	PTW-002-SW_A1 Steely Gray SW 7664	PTW-002-SW_A2 Polished Concrete SW 9167	PTW-002-SW_A3 Dry Dock SW 7502

- Two background colors to be applied to the entire building, wrapping around all main volumes.
- The darker background color (PTW-002-SW series) to be applied always on the bottom part of the building aligning with any possible horizontal datum line already existing on the building. (This usually corresponds to the first or second floor).
- The lighter background color (PTW-001-SW) must always be applied on the upper part of the building.
- Only one background color scheme (Cool, Neutral or Warm) per the diagram above should be applied to the building.
- Background color schemes should be selected by having in consideration any possible accent materials on the existing building. (i.e: If a building has a cool grey stone application, then, cooler grey background tones should be use. If a building has a red brick application, then, warmer grey background tones should be use.
- The brand logo sign must always be applied on the light background color (PTW-001-SW), and not an accent color.
- Please see example diagrams on the next page.

Accent Colors

Band	PTW-003-SW Auric SW 6692
Face/s	PTW-004-SW Salty Dog SW 9177

- Accent color PTW-003-SW must be used at the horizontal datum line where the transition between the two background colors happens.
- Accent color PTW-004-SW should always be applied to highlight either a recessed or extruded face/s on the building facade.
- Accent color PTW-004-SW should always have an asymmetrical application on any longitudinal facade.
- The color blocking proportions should always be close to 30% accent / 70% background color.
- Please see example diagrams on the next page.

Color Blocking Formula

PTW-004-SW

Main Accent Color – Asymmetrical application on recessed or extruded building faces or volumes.

PTW-003-SW

Secondary Accent Color – Horizontal accent band at background color transition.

PTW-001-SW

Top Background Color – Overall top building mass.

PTW-002-SW_A1 / A2 / A3

Bottom Background Color – Overall bottom building mass.

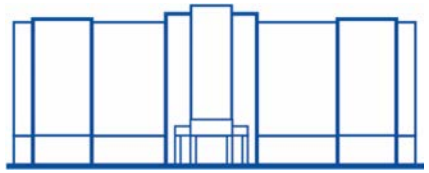
Example #6 – Asymmetrical Application of Accent Color:

Building Typologies

The building typologies described below try to categorize and organize the bulk of the possible properties currently found in the US+Canada market that might be appropriate for a City Express by Marriott conversion however, it is not limited to the following:

Flat Roof



- Angles
- Datum (Brick/Stone)
- EIFS
- Pop-outs / Recessed

Peak Roof

- Flat Roof / Straight-lined
- Tower
- Cornices
- Datum (Brick/Stone)
- EIFS
- Visible Facade Joints

Exterior Corridor

- Towers
- Exterior Corridors/Guardrails
- Columns
- EIFS
- Corridors

Unique Architecture

- Silos, Towers, Windmills
- Vernacular Architecture
- Adobe
- Circular, Arches
- Geometric Roof Lines

Please refer to the following pages to find case studies on an on-strategy exterior colors application to the building typologies described above.

© MARRIOTT INTERNATIONAL, INC, ALL RIGHTS RESERVED

Case Study #1

Flat Roof Typology

Before

After

After

- Existing cool tone stone to remain on façade.
- Horizontal datum located at transition of existing stone and EIFS.
- Bottom background color PTW-002_SW_A1 selected to match existing stone and applied to overall building mass.
- Top background color (PTW-001_SW) applied to overall building mass.
- Horizontal band accent (PTW-003-SW) applied at background color transition. Application must not cross other accent color blocking.
- EIFS joints used to help define color extent.

Case Study #2

Peak Roof Typology

Before

After

After

- Existing cool tone stone to remain on façade.
- Horizontal datum located at transition of existing stone and EIFS.
- Bottom background color PTW-002_SW_A1 selected to match existing stone and applied to overall building mass.
- Top background color (PTW-001_SW) applied to overall building mass.
- Horizontal band accent (PTW-003-SW) applied at background color transition. Application must not cross other accent color blocking.
- EIFS joints used to help define color extent.

*Please refer to City Express by Marriott Exterior Signage Manual

Case Study #3

Exterior Corridor Typology

Before

After

After

- Existing warm tone roof shingles to remain.
- Horizontal datum located at transition between first and second floor.
- Bottom background color PTW-002_SW_A2 selected to match existing roof shingles and applied to overall building mass.
- Top background color (PTW-001_SW) applied to overall building mass.
- Horizontal band accent (PTW-003-SW) applied at background color transition. Application must not cross other accent color blocking.
- EIFS joints used to help define color extent.

Case Study #4

Unique Architecture Typology

Before

After

After

- Existing warm tone roof shingles to remain.
- Horizontal datum located at transition between first and second floor.
- Bottom background color PTW-002_SW_A1 selected and applied to overall building mass.
- Top background color (PTW-001_SW) applied to overall building mass.
- Horizontal band accent (PTW-003-SW) applied at background color transition. Application must not cross other accent color blocking.
- EIFS joints and building's volumes used to help define color extent.
- City Express by Marriott sign always applied with PTW-001_SW on the receiving wall.

WIP

Arrival Experience

Design Approach

Porte Cochere

- Arrival moment
- Impactful for guest to create brand identity
- Creating a signature moment
- Application of graphic pattern in brand colors
- Work with existing framework and light pattern
- Column and post to remain neutral
- Roof is main accent color

Entry Doors

- As a continuation of the arrival moment
- Reinforces brand identity with a signature moment
- Applied to the glass for easy application

© MARRIOTT INTERNATIONAL, INC, ALL RIGHTS RESERVED

Exterior Signage

Design Approach

Entry Sign:

Rules:

- All existing signs referring to previous brand identifiers to be removed.
- Sign to always be installed on exterior wall with PTW-001-SW paint applied to. Refer to the *Rules of Application* page in this section.

Monument Sign:

Rules:

- All existing signs referring to previous brand identifiers to be removed.
- Monument base finish to match PTW-001-SW. Refer to the *Rules of Application* page in this section.

Pole Sign:

Rules:

- All existing signs referring to previous brand identifiers to be removed.
- Pole finish to match PTW-001-SW. Refer to the *Rules of Application* page in this section.

Public Space

Artwork Strategy

Design Approach

In today's fast-paced world, the journey is just as important as the destination. The art package reflects this ethos, using black and white photography with a pop of color to symbolize optimism and the spirit of adventure. The monochromatic tones represent the straightforward, functional aspects of travel, while the bursts of color speak to moments of joy, discovery, and renewal that punctuate the traveler's path.

Each image captures a unique scene of motion or transition, aligning with our guests' on-the-go lifestyle. Whether it's a long road stretching toward the horizon, or a hot air balloon preparing to rise, these images remind our guests of the journey they are on, while encouraging them to pause and savor the experience. Through these compositions, art transforms into a narrative that welcomes guests to their new adventure, wherever the sun is setting.

- ✔ Signature artwork - a collection of images that can be customed in size as needed per property.
- A combination of framed and canvas wrapped art specifications.
- Guest room art to be purchased and installed in pre-determined groupings.
- Public space art can be separated for unique conditions, but paired installation is preferred.
